iPOSpays Payment Gateway Platform

Your restaurant's all-in-one payment solution.

Dejavoo
an iPOS systems company

STREAMLINE OPERATIONS.

Send payment links from virtual terminals and POS devices, tap-to-pay for delivery; tip adjust after batch is settled, easily split payments, and view sales across multiple locations in one centralized platform. iPOSpays has all your restaurant needs covered!

Contact us today to get started.

Comprehensive Solutions

From website payment buttons to CloudPOS for MO/TO orders to countertop and hand-held devices for in-store payments and tap-to-pay for deliveries.

Easy Multi-Location Reporting

Our portal offers a comprehensive view of sales across all locations and devices.

Website Integration

Integrate our payment page into your website for table reservations and advance payments for catering orders.

Tip Management

Adjust tips even after the batch is settled. Tag server IDs to quickly generate tip reports. Servers can also track their tips directly from the POS, enhancing efficiency and accuracy.

QuickBooks Integration

Say goodbye to manual entry and errors. Experience real-time posting with our seamless QuickBooks integration.

Increase Customer Reviews

We make it easy for you to collect social media reviews with an integrated feedback screen on your POS, allowing customers to input feedback and post it to the portal upon checkout.

Have questions or need help?

A dedicated team member will be with you every step of the way.
